Welcome to Money Matters
The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their educational records.
Directory information is distributed without prior consent of the student.

Directory information is defined as: a student's name, address, email address, telephone number, date of birth, major field of study, dates of attendance, class year and degree, and awards received.

However, students who do not wish such information to be released or made public may inform the Admissions Office in writing by September 1st for the fall semester.
**YCPWeb For Parents:**
YCPWeb for Parents allows students to create a parent account for proxy access to important information that pertains to the student. Through the parent proxy account, parents can access information including **warning grades, final grades, pay deposits, and view/pay eBills.**

**Account Creation:**
Students setup the account using the parent email address and a PIN. The student determines and authorizes what information is available to view by the parent.
