NACE Career Competencies Key

Based on research among employers, the National Association of Colleges & Employers identifies eight competencies associated with students' career readiness. The Career Development Center strives to incorporate these competencies in programs, workshops, and resources.

PS: Critical Thinking & Problem Solving: Analyze and problem solve

OW: Oral & Written Communication: Effectively articulate thoughts

TC: Teamwork & Collaboration: Build and maintain relationships

DT: Digital Technology: Utilize, adapt, and understand technology

LD: Leadership: Coach, guide, and leverage the strengths of others

PW: Professionalism & Work Ethic: Exhibit professional habits

CM: Career Management: Identify skills, strengths, opportunities

GF: Global/Intercultural Fluency: Learn from and respect diversity

For more information and complete descriptions of the Career Competencies, visit naceweb.org or the Career Development web site.
