APPEAL OF THE PARKING PERMIT ELIGIBILITY POLICY

Because parking is a limited resource on campus, residential students residing on the main campus with less than 60 credits, as well as students residing on the north and west campuses, are not eligible for main campus parking. To appeal the parking permit eligibility policy, students must demonstrate both a compelling need for main campus parking and why their current eligibility will not meet their needs. Attach supporting documentation.

Complete all the information listed below and sign where indicated, if applicable. Return completed form to the Campus Safety office for processing.
